1. Substance/preparation and company identification

**STRATAGEM® SECURABLE WAX BLOCK RODENTICIDE**

Use: Rodenticide

Company:
BASF Australia Limited (ABN 62 008 437 867)
Level 12, 28 Freshwater Place Southbank
Victoria 3006, AUSTRALIA
Telephone: +61 3 8855-6600
Telefax number: +61 3 8855-6511

Emergency information:
BASF Emergency Advice Number: 1800 803 440 (24h) [within Australia]
BASF Emergency Advice Number: + 61 3 8855 6666 [outside Australia]

2. Hazard identification

No specific dangers known, if the regulations/notes for storage and handling are considered.

NON-HAZARDOUS SUBSTANCE, NON-DANGEROUS GOODS

3. Composition/information on ingredients

**Chemical nature**

Rodenticide, Bait
Hazardous ingredients

Flocoumafen

Content (W/W): 0.005 %
CAS Number: 90035-08-8
Hazard symbol(s): T+, N
R-phrase(s): 26/27/28, 48/23/24/25, 50/53

The wording of the hazard symbols and R-phrases is specified in Section 16 if dangerous ingredients are mentioned.

4. First-Aid Measures

General advice:
Avoid contact with the skin, eyes and clothing. Remove contaminated clothing. If difficulties occur: Obtain medical attention. Show container, label and/or safety data sheet to physician.

If inhaled:
Keep patient calm, remove to fresh air, seek medical attention.

On skin contact:
After contact with skin, wash immediately with plenty of water and soap. If irritation develops, seek medical attention.

On contact with eyes:
Immediately wash affected eyes for at least 15 minutes under running water with eyelids held open, consult an eye specialist.

On ingestion:
Rinse mouth immediately and then drink plenty of water, seek medical attention. Never induce vomiting or give anything by mouth if the victim is unconscious or having convulsions. Do not induce vomiting unless told to by a poison control center or doctor.

Note to physician:
Symptoms: tiredness, loss of appetite, coagulation disorders
Hazards: The product contains a blood coagulation inhibitor.
Treatment: Symptomatic treatment (decontamination, vital functions).
Antidote: Vitamin K1 preparation as antidote.

5. Fire-Fighting Measures

Suitable extinguishing media:
dry powder, foam, water spray, carbon dioxide

Unsuitable extinguishing media for safety reasons:
water jet
Specific hazards:
carbon monoxide, hydrogen fluoride, carbon dioxide, nitrogen oxides, toxic gas
The substances/groups of substances mentioned can be released in case of fire.

Special protective equipment:
Wear self-contained breathing apparatus and chemical-protective clothing.

Further information:
In case of fire and/or explosion do not breathe fumes. Keep containers cool by spraying with water if exposed to fire. Collect contaminated extinguishing water separately, do not allow to reach sewage or effluent systems. Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

6. Accidental Release Measures

Personal precautions:
Use personal protective clothing. Avoid contact with the skin, eyes and clothing. Remove contaminated clothes, undergarments and shoes immediately.

Environmental precautions:
Do not discharge into drains/surface waters/groundwater. Do not discharge into the subsoil/soil.

Methods for cleaning up or taking up:
For large amounts: Sweep/shovel up.
For residues: Contain with dust binding material and dispose of.
Avoid raising dust. Clean contaminated floors and objects thoroughly with water and detergents, observing environmental regulations. Collect waste in suitable containers, which can be labeled and sealed. Incinerate or take to a special waste disposal site in accordance with local authority regulations.

7. Handling and Storage

Handling
No special measures necessary if stored and handled correctly. If dead and/or dying rats or mice are found during and after the control program, these must be cleared away immediately in order to avoid secondary poisoning phenomena. Do not apply in the open (use bait boxes, bait cartons or foil bags).

Protection against fire and explosion:
Dust can form an explosive mixture with air. Avoid dust formation. Avoid deposition of dust. Prevent electrostatic charge - sources of ignition should be kept well clear - fire extinguishers should be kept handy.

Storage
Segregate from foods and animal feeds.
Further information on storage conditions: Keep locked-up and out of reach of children. Keep in a cool, well-ventilated place. Keep away from heat. Protect against moisture. Protect from direct sunlight.

Protect from temperatures above: 30 °C
8. Exposure controls and personal protection

Components with workplace control parameters

No exposure standard allocated

Personal protective equipment

Respiratory protection:
Breathing protection if breathable aerosols/dust are formed. Wear respiratory protection if ventilation is inadequate. Particle filter with medium efficiency for solid and liquid particles (e.g. EN 143 or 149, Type P2 or FFP2)

Hand protection:
Suitable chemical resistant safety gloves (EN 374) also with prolonged, direct contact (Recommended: Protective index 6, corresponding > 480 minutes of permeation time according to EN 374): E.g. nitrile rubber (0.4 mm), chloroprene rubber (0.5 mm), butyl rubber (0.7 mm) and other

Eye protection:
Safety glasses with side-shields (frame goggles) (e.g. EN 166)

Body protection:
Body protection must be chosen depending on activity and possible exposure, e.g. apron, protecting boots, chemical-protection suit (according to EN 14605 in case of splashes or EN ISO 13982 in case of dust).

General safety and hygiene measures:
The statements on personal protective equipment in the instructions for use apply when handling crop-protection agents in final-consumer packing. Avoid contact with the skin, eyes and clothing. Wearing of closed work clothing is recommended. Remove contaminated clothing immediately and dispose of safely. Store work clothing separately. Keep away from food, drink and animal feeding stuffs. No eating, drinking, smoking or tobacco use at the place of work. Hands and/or face should be washed before breaks and at the end of the shift.

9. Physical and Chemical Properties

10. Stability and Reactivity

- **Thermal decomposition:** No decomposition if stored and handled as prescribed/indicated.
- **Substances to avoid:** No substances known that should be avoided.
- **Hazardous reactions:** No hazardous reactions if stored and handled as prescribed/indicated.
- **Hazardous decomposition products:** No hazardous decomposition products if stored and handled as prescribed/indicated.

11. Toxicological Information

**Acute toxicity**

- LD50 rat (oral): > 5,000 mg/kg (product)
- LD50 rat (dermal): > 5,000 mg/kg (product)

Information on: Flocoumafen
- LC50 rat (by inhalation): 0.0008 - 0.007 mg/l 4 h

**Irritation**

- Primary skin irritation rabbit: non-irritant (product)
- Primary irritations of the mucous membrane rabbit: non-irritant (product)

**Assessment other acute effects**

Assessment other acute effects:
The available information is not sufficient for evaluation.

**Sensitization**

Modified Buehler test guinea pig: Skin sensitizing effects were not observed in animal studies.

**Repeated dose toxicity**

Assessment of repeated dose toxicity:
Inconclusive data.
Genetic toxicity

Assessment of mutagenicity:
No data available.

Carcinogenicity

Assessment of carcinogenicity:
Based on our experience and the information available, no adverse health effects are expected if handled as recommended with suitable precautions for designated uses.

Reproductive toxicity

Assessment of reproduction toxicity:
No data available.

Developmental toxicity

Assessment of teratogenicity:
No data available.

Other relevant toxicity information

Misuse can be harmful to health.

12. Ecological Information

Ecotoxicity

Toxicity to fish:
LC50 (96 h) > 4,000 mg/l, Oncorhynchus mykiss (product)
The product has not been tested. The statement has been derived from products of a similar structure or composition.

Aquatic invertebrates:
EC50 (48 h) 280 mg/l, Daphnia magna (product)
The product has not been tested. The statement has been derived from products of a similar structure or composition.

Information on: Flocoumafen
Toxicity to fish:
LC50 (96 h) 0.071 mg/l, Oncorhynchus mykiss
LC50 (96 h) 0.112 mg/l, Lepomis macrochirus

-----------------------------

Information on: Flocoumafen
Aquatic invertebrates:
EC50 (48 h) 0.17 mg/l, Daphnia magna

---------------------------

Information on: Flocoumafen
Aquatic plants:
EC50 (72 h) >= 18.2 mg/l, Pseudokirchneriella subcapitata

---------------------------

**Persistence and degradability**
Information on: Flocoumafen
Assessment biodegradation and elimination (H2O):
Not readily biodegradable (by OECD criteria).

---------------------------

**Additional information**

Other ecotoxicological advice:
Do not discharge product into the environment without control.

---

**13. Disposal Considerations**

Must be disposed of or incinerated in accordance with local regulations.

Contaminated packaging:
Contaminated packaging should be emptied as far as possible and disposed of in the same manner as the substance/product.

---

**14. Transport Information**

**Domestic transport:**
ADG Code
Not classified as a dangerous good under transport regulations

**Sea transport**
IMDG
Not classified as a dangerous good under transport regulations
Air transport
IATA/ICAO Not classified as a dangerous good under transport regulations

15. Regulatory Information

Standard for the Uniform Scheduling of Drugs and Poisons (Australia):

Poisons Schedule: Drugs & Poisons, Schedule 6

Other regulations

Registration status:
AICS, AU released / exempt
APVMA Approval 54190

16. Other Information

Recommended use: Rodenticide

Full text of hazard symbols and R-phrases if mentioned as hazardous components in Section 3:

T+ Very toxic.
N Dangerous for the environment.
26/27/28 Very toxic by inhalation, in contact with skin and if swallowed.
48/23/24/25 Toxic: danger of serious damage to health by prolonged exposure through inhalation, in contact with skin and if swallowed.
50/53 Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

Vertical lines in the left hand margin indicate an amendment from the previous version.

The data contained in this safety data sheet are based on our current knowledge and experience and describe the product only with regard to safety requirements. The data do not describe the product's properties (product specification). Neither should any agreed property nor the suitability of the product for any specific purpose be deduced from the data contained in the safety data sheet. It is the responsibility of the recipient of the product to ensure any proprietary rights and existing laws and legislation are observed.
